# VERITAS™

The truth in information.

# Top Reasons to Choose Veritas Resiliency Platform.

1. BROAD INFRASTRUCTURE SUPPORT

Only multi cloud platform that supports physical, virtual and cloud-based infrastructures. Provides choice of data mover technologies from: VMware, Microsoft, EMC, NetApp, Hitachi, Hewlett Packard Enterprise, IBM and native built-in replication.
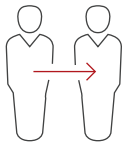

2. GET BACK TO BUSINESS QUICKLY

Dynamic policy-based solution gets your business up and running quickly by matching business applications with underlying infrastructure components—regardless of location.

3. DATA INTEGRITY

Automated sequencing of workload shut-down and start-up ensures applications and associated services are back online as quickly possible.

4. NON-DISRUPTIVE REHEARSALS

Automated simulation of migration and takeover procedures preserves production up-time and proves the value of your resiliency spend.

5. COMPREHENSIVE REPORTS

Delivers historical and real-time data points that keep you informed on the resilient state of your business, help to prove audit compliance and supports more informed decision making.
