

# Veritas Alta SaaS Protection: FedRAMP Ready

The Most Secure SaaS Platform for Critical Workloads

## Securing SaaS Data with FedRAMP Ready Certification

Veritas Alta SaaS Protection has achieved FedRAMP Ready status, marking a pivotal step towards FedRAMP Moderate certification. This certification underscores our commitment to meeting the highest U.S. government security standards, providing robust data protection and compliance for critical workloads. Ensuring your SaaS data is aligned with top-tier government security standards is important. Achieving U.S. FedRAMP Ready marks a pivotal step toward FedRAMP certification. Veritas SaaS Protection is FedRAMP Ready - underscoring our commitment to meeting the highest U.S. government security standards by providing robust data protection and compliance for critical workloads.

FedRAMP facilitates the use of modern cloud technologies by federal agencies, focusing on the security and protection of federal information. It represents the gold standard for security assessment and authorization of cloud products and services which handle unclassified federal information. This achievement assures that our platform meets stringent federal security requirements.

### ALTA SAAS PROTECTION (ASP)

**VERITAS™**

Package ID: FR2417145078

Package Request Form

Authorizations: 0

Reuse: 0

**Authorization Status**

Ready	In Process: In Agency Review	In Process: In PMO Review	Authorized
✓	○	○	○
09/16/2024	N/A	N/A	N/A

**Authorization Details**  
Authorization Path: Agency  
FedRAMP Ready: 09/16/2024

**System Profile**  
Service Model: SaaS  
Deployment Model: Government Community Cloud

Achieving FedRAMP Ready indicates that Veritas ASP has been rigorously assessed by a third-party organization and found prepared for the authorization process, having successfully completed the FedRAMP Readiness Assessment review by the FedRAMP PMO.

## Key Features & Benefits of Veritas Alta SaaS Protection

Feature	Benefit
Private Tenant Architecture	Guarantees isolation and maximum security, ensuring operations and data are never shared with other customers.
Compliance beyond FedRAMP	Veritas ASP is SOC 2 compliant, GxP certified, and IRAP certified, covering a range of industries and compliance needs.
Enterprise Scale	Built on the secure Microsoft Azure Government Cloud, Veritas ASP offers unmatched scalability and reliability.
Azure Government Cloud	Trusted Protection that offers comprehensive backup and recovery for Microsoft 365, safeguarding against deletion, corruption, and cyber-attacks.
Data Sovereignty	Automated data residency controls make meeting data sovereignty requirements simple.
Petabyte Scale	Backup storage that scales to multiple petabytes and billions of objects.
Multi-factor Authentication	Enhanced security with MFA and SSO.
Legal Holds	Search across multiple data sources simultaneously and apply legal holds quickly and easily.
Unlimited Backup Retention	Flexible retention policies based on numerous customizable criteria, ensuring data preservation.

This makes ASP the ideal choice for organizations with rigorous security and regulatory requirements.

## Trusted by Highly Regulated Industries

Our platform is relied on by **large enterprise customers** across industries where compliance is critical:

- Finance & Banking
- Pharmaceuticals
- Legal

With ASP, your organization is equipped to meet the most demanding regulatory standards without sacrificing performance or scalability

## Why Choose Veritas ASP?

By achieving **FedRAMP Ready status**, Veritas ASP sets a new standard for **security, compliance, and customer trust** in SaaS. From private tenant architecture to industry-leading certifications, our platform is built to handle the needs of enterprises operating in highly regulated environments.

Secure. Compliant. Discover how Veritas ASP can transform your SaaS security. Learn more about how Veritas Alta SaaS Protection can elevate your SaaS security by visiting us at the [FedRAMP Marketplace](#) or on our website at [Veritas](#).

## About Veritas

Veritas Technologies is the leader in secure multi-cloud data management. Over 80,000 customers—including 91% of the Fortune 100—rely on Veritas to help ensure the protection, recoverability and compliance of their data. Veritas has a reputation for reliability at scale, which delivers the resilience its customers need against the disruptions threatened by cyberattacks, like ransomware. No other vendor is able to match the ability of Veritas to execute, with support for 800+ data sources, 100+ operating systems and 1,400+ storage targets through a single, unified approach. Powered by Cloud Scale Technology, Veritas is delivering today on its strategy for Autonomous Data Management that reduces operational overhead while delivering greater value.
