Top 10 Reasons Customers Choose NetBackup Flex

1. Turnkey Netbackup™ Enterprise Data Protection

- Full power of NetBackup data protection software in an easy-to-use appliance platform.

2. Agile, Container-Based Architecture

- Modular architecture, running system services and NetBackup as containers.

3. Cyber Resilience

- Adaptive self-defense with advanced user behavior analytics.
- Multi-layer cyber-resilience protects against all attack vectors.
- Immutable and indelible storage.
- Hardened operating environment to prevent administrative mistakes, malware or malicious insider attacks.

4. Minimize Planned and Unplanned Downtime

- Resilient hardware architecture.
- Protection designed into software for better operational uptime.
- High availability for all workloads and services running on 5360 HA Appliances.
- Deep monitoring of NetBackup services.

5. Fast and Simple Installs and Upgrades

- Install NetBackup services in minutes with simple workflows.
- Complete upgrades in less than 5 minutes.

6. Consolidation with Flexibility

- Mix-and-match combinations of NetBackup services.
- Run multiple NetBackup releases.

7. Multi-Tenant Technology

- Serve multiple lines of business or departments with physical consolidation and logical separation of services and data.

8. Enterprise Data Protection From Edge to Core to Cloud

- 5260 Appliances for departmental and branch offices.
- 5360 Appliances for the most demanding workloads in the core data center.

9. High-Confidence Migrations to New Versions of NetBackup

- Try new versions of NetBackup "on the box" before going into production.

10. Driven by APIs

- Easily automate day-to-day operations with APIs.
- Plan ahead for capacity with storage utilization monitoring.
- Efficiently manage your resources using performance monitoring with external dashboards.

About Veritas

Veritas Technologies is the leader in secure multi-cloud data management. Over 80,000 customers—including 91% of the Fortune 100—rely on Veritas to help ensure the protection, recoverability and compliance of their data. Veritas has a reputation for reliability at scale, which delivers the resilience its customers need against the disruptions threatened by cyberattacks, like ransomware. No other vendor is able to match the ability of Veritas to execute, with support for 800+ data sources, 100+ operating systems and 1,400+ storage targets through a single, unified approach. Powered by Cloud Scale Technology, Veritas is delivering today on its strategy for Autonomous Data Management that reduces operational overhead while delivering greater value.
